

## Agro- and geotextile rewinding

Rolls offers you a complete and individually engineered rewinding unit for agro- and geotextiles, fabric widths up to 5400 mm (or more), consisting of :

### Unwinder

- Cradle type
- Rolls up to  $\varnothing$  1000 mm (or more)
- Edge-controlled

### Cutting area

- Ultrasonic cutting devices
- Length measuring

### Winder

- Rolls up to  $\varnothing$  500 mm (or more)
- Pneumatically roll evacuation
- Tangential winding
- Winding tension control
- Optionally:
  - Pressure roll
  - Ancillary axial drive
  - Transversal cut (heated wire)
  - Turnable evacuation bridges
